Gathering Groups Discussion Questions:

Ice Breaker: What was your favorite class in school? What did you enjoy about it?

Question #1:

- Talk about how each of you have viewed the relationship between faith and science before hearing this sermon.

Question #2:

- What are the differences between the bottom-up questions of science and the top-down questions of faith/theology?
- What happens when we fail to see these differences?

Question #3:

- How can science and faith actually complement each other within the framework that Dan provided?

Question #4:

- How does the framework introduced by Dan help us live out our faith in a world that is driven by science?
