**PSALMS 19:1**

The heavens are telling the glory of God; and the firmament  
proclaims his handiwork.

**PSALMS 14:1**

Fools say in their heart, "There is no God."

## THE GOLDILOCKS ARGUMENT

5. VERSE-BG

### 1. ELECTROMAGNETIC FORCE CONSTANT

*If slightly greater:* chemical bonding would be disrupted, elements more massive than boron would be unstable, life chemistry would be impossible.

*If slightly lesser:* chemical bonding would be insufficient for life chemistry.

6. VERSE-BG

## 2. STRONG NUCLEAR FORCE CONSTANT

*If slightly larger:* no hydrogen would form, hence no life chemistry would be possible

*If slightly smaller:* no elements heavier than hydrogen would form: again, no life chemistry

7. VERSE-BG

## 3. WEAK NUCLEAR FORCE CONSTANT

*If slightly larger:* too much helium in big bang; hence, stars would convert too much matter into heavy elements making life chemistry impossible

*If slightly smaller:* too little helium would be produced from big bang; hence, stars would convert too little matter into heavy elements making life chemistry impossible

8. VERSE-BG

#### 4. GRAVITATIONAL FORCE CONSTANT

*If slightly larger:* stars would be too hot and would burn too rapidly and too unevenly for life chemistry

*If slightly smaller:* stars would be too cool to ignite nuclear fusion; thus, many of the elements needed for life chemistry would never form

9. VERSE-BG

“The laws of science, as we know them at present, contain many fundamental numbers, like the size of the electric charge of the electron and the ratio of the masses of the proton and the electron...The remarkable fact is that the values of these numbers seem to have been very finely adjusted to make possible the development of life.”

- Stephen Hawking

10. VERSE-BG

“A commonsense interpretation of the facts suggests that a super-intellect has monkeyed with physics, as well as with chemistry and biology, and that there are no blind forces worth speaking about in nature. The numbers that one calculates from the facts seem to me so overwhelming as to put this conclusion almost beyond question.”

- Fred Hoyle

**GENESIS 1:27**

So God created humankind in his image,  
in the image of God he created them;  
male and female he created them.
