SAVE THE DATE

They walk everywhere on their daily comings and goings - now it's your turn to walk a mile in their shoes. **Come support our partner communities at our 2024 walk-a-thon fundraising event.** This walk-a-thon will be in lieu of our typical annual gala.

Join us for a beautiful morning and afternoon at Como Park in Saint Paul, Minnesota to walk around the lake in solidarity with our Haitian brothers and sisters. We'll have food, vendors and community and can't wait to share it with you.

Saturday, May 18, 10am - 2pm

Como Park in Saint Paul, Minn.

Full invite coming soon!

IN THE HARDEST TIMES, LIFE GOES ON.

Our partner communities have not slowed down on their march towards growth and self-improvement, despite the current unrest in Haiti. Each community is meeting multiple times a week to reflect, process and mobilize. The youth are also responding to the overall state of the country, holding meetings to check in with one another as well as learn and work on skill sets that can someday help them with future professions.

GROWING MORE SUSTAINABLE EVERY DAY

Agriculture, agro-forestry and sustainable farming has continued to be a flagship priority for each of our partner communities. Villagers are slowly but surely transforming their communities through planting trees and making real changes to better the health of their ecosystem. We have been able to collaborate with USITA (Université SEED International Institute of Tropical Agriculture) which has a student intern working alongside our staff. He has been leading the work on our nurseries and gardens and training community members on animal care, planting and soil preservation.
