

**This is Gen Z**

These are some of the words that describe Gen Z. Look at some of the conflicting words - isolated and lonely but hyper-connected. But they are also authentic and open to Jesus!

**God loves Gen Z**

At the University of Wisconsin - Madison, Christopher filled out a survey from the pom pom giveaway. Ethan, a Cru staff member, met with Christopher and after going through the gospel with him, Christopher accepted Jesus! He has continued to come to Cru.

Also at UW-Madison, Joseph and his roommate Filip also filled out the survey from the pom pom giveaway. Joseph didn't know much about the gospel but was interested in hearing more. After hearing the gospel, Joseph made a decision to follow Jesus!

Don't believe anything that you hear that Gen Z is too far from God! We are seeing a very, very spiritually open generation of students!

**Provision**

This is our 10th year in Orlando! Crazy! It's also the first year since we've moved that we haven't had short pay checks at some point during the year. We're so thankful!

This is also the year of our children having major medical treatments - two sets of braces, therapy for eye-vision tracking, and therapy for dyslexia and dysgraphia. And unfortunately, like many others, our health insurance costs are increasing next year significantly. In order to cover all these costs, we need to raise about \$16,000. Would you consider giving a year-end gift to help supply our need? You can give online at [give.cru.org/0523972](https://give.cru.org/0523972) or through a check payable to "Cru".

And please pray for me, Adam, as I prepare to speak to 1200 students at the Indy Winter Conference on Dec 31st on the surrendered life.

***Adam and Hanni Go***
